TOUGH LOVE & FIERCE METTA WITH MUSHIM

The healing benefits of Loving Kindness (metta) Meditation are well-known. But what happens when soft, soothing words, and gentle loving kindness just don't cut it? Do we always have to be “nice” when we're extending compassionate love to others? How can we be loving as we take action against injustice, war, oppression, in service of creating a more peaceful society and world? What is the relationship of anger and fierceness to true (spiritual) love? Join us for a daylong retreat of silent meditation, interactive exercises and discussion, and Dharma talks. Beginners in meditation are welcome and instruction is provided.

BEING PRESENT IN THE BODY: USING MINDFULNESS TO WORK WITH PERSONAL TRAUMA

WITH PAWAN BAREJA

This daylong will empower us to work with our wounds using the wisdom of Vipassana mindfulness practices and skills of Somatic Experiencing®, a trauma healing modality created by Dr. Peter Levine to work with personal trauma. The day will include instructions on how to recognize traumatic responses in our bodies, which can inhibit our daily lives through stress and anxiety. Using somatic (body-based) skills, we can begin to free up our energy so we feel more settled, grounded, and calm in our lives. Applying the tools offered in this daylong, our nervous system can begin to regain its innate capacity to self-regulate.

THE POWER OF GENEROSITY: FROM THE PERSONAL TO THE GLOBAL

WITH DAVID FOECKE AND BRENDA SALGADO

The practice of "gift economies" is both ancient and enjoying resurgence, as communities seek to share resources and experiment with more interconnected ways of living together. Cultivating generosity at an individual level creates opportunities for spiritual awakening, while cultivating generosity at collective levels builds social foundations for radical inclusivity.

We will begin the day focusing on cultivating generosity in our lives, based in Buddhist and other wisdom traditions. The second part of the day will focus on generosity at community and systems levels. We will explore generosity as a revolutionary practice pointed toward cultivating a sense of "enoughness" in ourselves and in the world.
